

## Contents

Summary .....	iii
Acronyms.....	xi
1.0 Introduction .....	1.1
1.1 Background .....	1.2
1.2 Organization of the Report.....	1.3
1.3 Site Mission.....	1.3
1.4 Status of Cleanup Program.....	1.5
2.0 Regional Context End State Description .....	2.1
2.1 Physical and Surface Interface .....	2.1
2.2 Human and Ecological Land Use.....	2.1
3.0 Site-Specific End State Description.....	3.1
3.1 Physical and Surface Interface .....	3.4
3.2 Human and Ecological Land Use.....	3.13
3.2.1 Land Use Adjoining the Hanford Site.....	3.13
3.2.2 Hanford Site Land Use.....	3.14
3.2.3 Selected Land-Use Alternative.....	3.21
3.3 Site Context Legal Ownership .....	3.25
3.4 Site Context Demographics.....	3.25
3.4.1 Method .....	3.28
3.4.2 Results .....	3.28
3.5 Hanford Current/End State Descriptions.....	3.30
3.5.1 Hanford End State Public Workshops.....	3.34
3.5.2 Groundwater Baseline and End State Descriptions.....	3.36
3.5.3 River Corridor – Background, Baseline, and End State Descriptions.....	3.41
3.5.4 Central Plateau - Background, Baseline, and End State Descriptions.....	3.50
3.5.5 Summary of Tribal Discussions .....	3.63
4.0 Hazard-Specific Discussion.....	4.1
4.1 100 Areas .....	4.3
4.1.1 Summary of Existing Hazards in the 100 Areas .....	4.3
4.1.2 Exposure Pathways and Potential Implications of the End State Vision .....	4.5
4.1.3 100 Area Conceptual Site Model Description.....	4.13

4.2	300 Area.....	4.22
4.2.1	Summary of Existing Hazards.....	4.27
4.2.2	Exposure Pathways and Potential Implications of the End State Vision .....	4.27
4.3	200 Areas .....	4.31
4.3.1	Summary of Hazards.....	4.31
4.3.2	Exposure Pathways and Potential Implications of the End State Vision .....	4.36
4.4	400 Area.....	4.41
4.4.1	400 Area Current Baseline End State.....	4.41
4.4.2	400 Area End State.....	4.41
4.5	Overview of Hanford's Plans for Conducting Risk Assessments .....	4.41
5.0	Discussion of Alternatives.....	5.1
5.1	Background .....	5.1
5.2	Descriptions of Alternatives.....	5.2
6.0	References .....	6.1

## Figures

1.1	The Hanford Site in Southeastern Washington State.....	1.4
1.2	Central Plateau Core Zone Map.....	1.7
2.1a	Regional Physical and Surface Interface – Current State .....	2.3
2.1b	Regional Physical and Surface Interface – End State Vision .....	2.4
2.1c	Columbia River Watershed .....	2.5
2.2a	Regional Human and Ecological Land Use – Current State .....	2.6
2.2b	Regional Human and Ecological Land Use – End State Vision .....	2.7
3.1a	Site Physical and Surface Interface – Current State.....	3.6
3.1b	Site Physical and Surface Interface – End State Vision.....	3.7
3.1c	Major Hydrogeologic Units at the Water Table in March 1999 .....	3.8
3.1d	West-East Cross Section Showing Major Hydrogeologic Units at the Hanford Site and the Water Table in 1999 .....	3.9

3.1e	Comparison of Generalized Hydrogeologic and Geologic Stratigraphy.....	3.10
3.1f	Estimates of Recharge for 1979 Conditions.....	3.12
3.2a	Site Human and Ecological Land Use – Current State Distribution of Vegetation Types and Land Use Areas on the Hanford Site Prior to the 24 Command File of 2000.....	3.15
3.2b	Site Human and Ecological Land Use – DOE's Selected Land-Use Alternative .....	3.22
3.3a	Site Context Legal Ownership – Current State .....	3.26
3.3b	Site Context Legal Ownership – End State Vision.....	3.27
3.4a	Site Demographics – Current State.....	3.29
3.4b	Site Demographics – End State Vision, High Estimate .....	3.31
3.4c	Site Demographics – End State Vision, Low Estimate.....	3.32
4.1a	100-B/C Area Hazards.....	4.6
4.1b	100-K Area Hazards .....	4.7
4.1c	100-N Area Hazards .....	4.8
4.1d	100-D Area Hazards .....	4.9
4.1e	100-H Area Hazards .....	4.10
4.1f	100-F Area Hazards .....	4.11
4.1g	100 Areas Waste Disposal Sites – Current State .....	4.15
4.1h	100 Areas Waste Disposal Sites – Current Baseline End State .....	4.16
4.1i	100 Areas Waste Disposal Sites – End State Vision .....	4.18
4.1j	100 Areas Former Production Reactors – Current State.....	4.20
4.1k	100 Areas Former Production Reactors – Current Baseline End State.....	4.21
4.1l	100 Areas Former Production Reactors – End State.....	4.23
4.1m	100 Areas Ancillary Facilities and Structures – Current State .....	4.24
4.1n	100 Areas Ancillary Facilities and Structures – Current Baseline End State .....	4.25
4.1o	100 Areas Ancillary Facilities and Structures – End State .....	4.26
4.2a	Hazard Map for the 300 Areas.....	4.29

4.3a	200 West Area Hazard Map.....	4.34
4.3b	200 East Area Hazard Map .....	4.35
4.3c	Tank Farm Map .....	4.36
4.3d	Potential Exposure Routes for 200 Area Tank Waste Sites.....	4.41

## Tables

1.1	Hanford Site Waste and Nuclear Material Inventory.....	1.3
3.1	County Level Population Growth Factors, 2000-2035 .....	3.30
3.2	Summary of the Current and Forecasted Population Densities in the Counties Surrounding the Hanford Site .....	3.33
3.3	100 Area Workshop, June 23 and 24, 2004.....	3.34
3.4	Central Plateau Workshop, August 10 and 11, 2004 .....	3.35
3.5	300 Area Workshop, May 19, 2005.....	3.36
3.6	Potential Future Land Uses for the 300 Area Identified During the End State Workshop .....	3.51
4.1	Summary of Existing Hazards in the 100 Areas .....	4.4
4.2	100 Areas – Overview and Comparison of Current and End State Assumptions for Land Use, Exposure Scenarios, Risk Protection Goals, and Potential Institutional Controls.....	4.12
4.3	Summary of Hazards in the 300 Area.....	4.28
4.4	300 Areas – Overview and Comparison of Current and End State Assumptions for Land Use, Exposure Scenarios, Risk Protection Goals, and Potential Institutional Controls.....	4.30
4.5	Summary of Hazards in the 200 Areas .....	4.32
4.6	200 Areas Waste Sites Overview and Comparison of Current and End State Assumptions for Land Use, Exposure Scenarios, Risk Protection Goals, and Potential Institutional Controls – Outside Core Zone .....	4.37
4.7	200 Areas Waste Sites Overview and Comparison of Current and End State Assumptions for Land Use, Exposure Scenarios, Risk Protection Goals, and Potential Institutional Controls – Inside Core Zone .....	4.39
4.8	Summary of Hanford Site Risk Assessments (from DOE/RL-2005-37, Rev. 0).....	4.42
